LATEST WASHINGTON NEWS.

[From the Correspondence of the Baltimore Gazette and Sun.]

TENURE-OF-OFFICE ACT.

The tenure of office act is yet unrepealed, and will not be touched until the "coming man" has entered into bond with approved security upon these vitally important points.

CABINET P. SITIONS.

Undoubtedly hailing radicals have become decidedly more cheerful within a day or two past. I stated the other day that the "slate" had been divulged to some of them. It is now confidently stated that the make-up receives the approbation of such differently classified men as Sumner and Stanton on the one hand, as Bingham and Trumbull on the other. Indeed, it is predicted, with more than usual audacity, that at least two of these worthies will themselves occupy conspicuous positions, although heretofore regarded as antipodes to each other in the classification of "wings."

THE CURRENCY RE-DIS TRIBUTION BILL.

The new tax bill cannot possibly become a law this session. Probably the bill providing, in effect, for additional currency for the South and West may get through, as it is understood it will receive the signature of the present Executive.

THE XV AMENDMENT.

The constitutional amendment, known as the fifteenth, it is thought, will also be adopted, in some form—probably in that recommended by the Judiciary Committee of the Senate and already passed by that body. It seems to be conceded, at least in Radical quarters, that it will not be necessary to submit this joint resolution to the Executive for approval. The only difference between the views of the House and Senate is upon the point of negro eligibility to office, as well as the right to vote.

THE SUFFRAGE QUESTION.

The House Judiciary Committee have agreed to adhere to the House joint resolution to amend the Constitution on suffrage, as heretofore reported by Mr. Boutwell, and the House will insist on the resolution. The Senate is equally determined on its own proposition, and there is a dead lock between the two Houses on the suffrage amendment, the difference being that the House gives the negro the right to vote upon the same footing as the white citizen, leaving to the States the right of fixing the qualifications of voters; whilst the Senate insists on giving the negro the right to hold office, and forbids property and religious qualifications. The Senate proposition cannot receive the requisite two-thirds vote in the House.

The House proposition cannot receive a two-thirds vote in the Senate; neither house is inclined to give way or compromise, and so the suffrage amendment is regarded as a failure at this session.

INCREASE OF REPRESENTATIVES.

It is proposed to increase the number of members of the House to three hundred. The estimate is, that if no increase in the number of representatives be made, New York will loose five members, Massachusetts two, Vermont, New Hampshire and Rhode Island each one. The Western States will nearly all gain.

XLI CONGRESS.

It is a mistake to suppose that it will be necessary for General Grant to call Congress together in order to insure legislation after the 4th of March. According to law the Forty-first Congress will assemble in *regular session* at 12 o'clock on that day, and it will require a Vote of both Houses to adjourn. The session will probably be a somewhat protracted one, and all the matters left over will, it is thought, be revived. Much fun ahead.

WOMAN'S RIGHTS.—The *World*, under "Items about Women," quotes from the "Gentoo Code," a book published in 1775, the following directions for the regulation of women, the reading of which suggests the idea that the book should be at once republished by some of our enterprising firms:

"When a woman's husband is absent on a journey, has expended all the money he gave her to support her in victuals and clothes during his absence, or if her husband went on a journey without leaving anything with her to support her expenses, she shall support herself by painting, by spinning, or some other employment. If a man goes on a journey, his wife shall not divert herself by plays, nor shall see any public show, nor shall laugh, nor dress herself in fine jewels and fine clothes, nor shall see dancing, nor hear music, nor shall sit in the window, nor shall ride out, nor shall behold anything choice and rare; but shall fasten well the house door, and remain private, and shall not eat any dainty victuals, and shall not blacken her eyes with eye powder, and shall not view her face in a mirror; she shall never exercise herself in any such agreeable enjoyment during the absence of her husband. So long as a woman remains unmarried her father shall take care of her; and in her old age, her son shall take care of her; and if, before a woman's marriage, her father should die, the brother or brother's son, or such other relations of the father shall take care of her; if, after marriage, her husband should die, and the wife has not brought forth a son, the brothers and brother's sons, or such other relations of her husband, the brothers or sons of the brothers of her father shall take care of her. If there are none of these, the magistrate shall take care of her, and, in every stage of life, if the persons who have been allotted to take care of a woman, do not take care of her, each in his respective stage accordingly, the magistrate shall fine them."

A TRUTH THAT OUGHT TO BE HEEDED.—The Huntsville (Texas) *Times* says:

"If the worthless carpet-baggers and scallawags who are here for the purpose of writing lies about crime and outrages, were only out of the country, our State and country at large would soon be blessed with peace and prosperity."

SAD ACCIDENT.—We regret to learn that Lucy, daughter of Daniel Clodfelter, of Waughtown, aged about 7 years, was so severely burnt on Tuesday night, by fire communicating to her clothes, as to cause her death at noon next day.—*Salem Press.*

LIFE INSURANCE.

THE KNICKERBOCKER MUTUAL LIFE INSURANCE COMPANY, OF NEW YORK.

Southern Branch, SAVANNAH, Ga.,

A. WILBUR, *Manager.*
R. D. ARNOLD, *Consulting Physician.*

THE ONLY BRANCH OFFICE OF LIFE INSURANCE IN THIS SECTION WHERE POLICIES ARE ISSUED AND LOSSES PAID.

ASSETS NEARLY

$5,000,000.

ANNUAL INCOME NEARLY

$3,000,000.

Annual Dividends nearly 50 per cent.

$73,500 LOSSES PAID BY THE SOUTHERN BRANCH IN TWO YEARS.

THE KNICKERBOCKER IS AN OLD, RELIable Company, and offers as great inducements to insurers as any solvent Company can. Issues Policies on *every* desirable plan. Loans one-third of Premium to Policy-Holder.

All Policies non-forfeitable, as the insured can at any time, on demand, get its surrender value.

NO RESTRICTIONS ON RESIDENCE OR TRAVEL.

NO EXTRA CHARGE for OFFICERS of the ARMY or NAVY, Officers of first-class Steam or Sail Vessels, or Railroad Conductors, &c.

The "KNICKERBOCKER" is ONE of the TWO Northern Companies whose Policies in the South were kept intact during the entire Rebellion, whose Dividends were accredited to Policy Holders as though Premiums were paid.

And is THE Company that paid all losses after the war, that occurred during the war, thus proving its integrity, the honorable method of conducting its business, and its indisputable solvency.

The KNICKERBOCKER still pays all losses, never disputes a just claim, and is as liberal and SAFE as any Company in America.

Importance of Life Insurance.

Read another forcible illustration of how the CONNECTICUT MUTUAL LIFE INSURANCE COMPANY pays its losses:—

"Received, at Raleigh, N. C., Jan 29th, 1869, of S. D. Wait, General Agent of the Conn Mutual Life Ins. Co., two thousand five hundred and forty-five dollars, in full payment of Policy No. 84,031, and dividend on the life of my late husband, ——, and I hereby surrender all my right, title and interest in the same to said Company.

(Signed) ——, of Newbern, N. C."

We refrain from publishing the names of the parties, because we do not think it advisable to publish one's private business, but will state, although the party had not been insured quite five months, yet received a 50 per cent. dividend of $45 on the premium paid. The dividends of this Company have been larger than those of any other, averaging over 50 per cent. annually, from the beginning, and the present dividend (Feb 1st, 1869,) exceeds the average. On this *twenty-fifth* annual dividend the Directors have, besides declaring a 45 per cent. dividend upon the premium paid, declared a per centage dividend on the surplus reserve arising from interest, which increases the policy holder's dividend annually, and on some policies pays over 70 per cent. this year. They have also adopted a *reduced all-cost premium table*, with immediate annual dividends.

This company is purely mutual; there are no *Stockholders* to absorb its earnings. It offers abundant security in a large accumulated fund of over TWENTY-THREE MILLIONS DOLLARS, derived alone from its business, and has $154 assets, securely invested for every $100 of its liabilities.—Its plans of business comprise all the desirable forms of insurance.

LIFE INSURANCE.

ÆTNA LIFE INSURANCE COMPANY,

Hon. E. A. BULKELEY, President,
AUSTIN DUNHAM, Vice "
T. O. ENDERS, Secretary.
H. W. ST JOHN, Actuary.

SUMMARY OF BUSINESS FOR 1867

Total Assets, over	$10,000,000
Polices Insured in '67,	15,251
Am'nt insured, nearly	$45,000,000
Policies Average "	3,000
Receipts for 1867,	5,129,447
Surplus for Dividends,	2,000,000

Dividend Fifty per cent.

Receipts for Interest Nearly Paid Its Losses.

It has $130 Assets for every $100 Liabilities.

Its premium receipts at the present time are nearly HALF A MILLION DOLLARS per month and are rapidly increasing.

The growth of the Ætna has never been equaled by any other Company whatsoever, in Europe or America.

Particular attention is called to the fact that while its business is increasing unprecedentedly, its ratio of expenses is comparatively small.

ECONOMY of management, CARE in the selection of risks, *promptness* in the payment of death claims, and *security* in the investment of its immense Trust Funds, are rigidly adhered to, and have ever characterized this Company.

The ÆTNA issues all the favorite kinds of Policies at the most favorable rates.

The ÆTNA issued last year more Endowment Insurances than any other Company.

The ÆTNA'S ratio of expenses, or cost of new business is less than any other Company whatsoever, and less than *two-thirds* of the average.

The ÆTNA is as liberal in permits to travel, in all parts of the world, as a sound discretion will warrant, and is much more liberal than any other prominent Company.

ANNUAL INCOME over $6,000,000.

The only Company that has the Low Participating Non-forfeitable Term Insurance with privilege of renewal. Ex. of rate at age 30 $14 67, which is nearly 40 per cent. lower than any other leading Company. Also

Non-forfeiting cash rates with dividends on contribution plan and payable at the end of the first year.

Description of Policies.

First—Whole Life Policies.

Second—Endowment Policies, for terms of ten fifteen, twenty, twenty-five, thirty, and thirty-five years.

AGES.

Insurance will be granted at all ages from fifteen to sixty years.

PREMIUMS.

Premiums are payable annually during the continuance of the insurance, or annually during a period of five, ten, fifteen, or twenty years within the insurance term, or by single payment.

DIVIDENDS.

All Whole Life and Endowment Policies, issued at the rates published herewith, will participate in the surplus from the date of issue,

The dividends will be declared and paid annually upon the contribution plan, and may be applied as the assured shall elect, either to reduce future premiums, or to increase the Cash Value of the Policy.

If no election be made the dividends will be added to the Cash Values.

When, by adding the dividends to the Cash Value, the accumulations on any Policy shall have become sufficient to keep the same in force for its *full amount*, without further payments, the assured may, at his option, either continue payment of premiums and enlarge thereby the annual additions to its Cash Value—or discontinue them; and in either case, when the accumulations shall have become equal to the sum insured, the annual dividends on the Policy will be declared as a per centage of said sum, and *paid* in cash, and upon surrender of said Policy the sum insured thereby will be paid in *full*, without regard to the time fixed therein for its payment.

The system of applying the dividends is peculiarly advantageous to the assured, securing, at an increased age, not only relief from further payment of premiums, but, at the same time, an annual income until death, unless he shall have previously received full payment of the Policy.

Dividends on pair-up Policies—that is, Policies which require no further payment of premium to continue them in force for the original amount of insurance—will be paid in cash upon demand.

NON-FORFEITURE RULES.

No whole Life or Endowment Policy, on which two or more annual cash premiums have been paid, shall be forfeited by failure to make further payment as stipulated therein, but will continue in force for the full amount which the Cash Value and dividends, then accumulated, will purchase, taken as a single net premium, upon the "Actuaries" rate of mortality and four per cent. interest; and the amount continued in force will generally exceed the aggregate of the payments actually made, extra charges excepted.

LIFE INSURANCE.

The Most Vigorous and the Most Liberal Insurance Company in the Country,

BROOKLYN LIFE INSURANCE COMPANY,

141 Broadway, N. Y.

ASSETS OVER

$1,000,000!

CHRISTIAN W. BOUCK, ... *President.*
ABRAM D. POLHEMUS, ... *Vice President.*
WILLIAM M. COLE, ... *Secretary.*
D. P. FACKLER, ... *Consulting Actuary.*
DANIEL AYRES, M. D., LL.D., *Med. Examiner.*

POLICIES ISSUED AS GOOD AS UNITED STATES BONDS.

POLICIES VALUABLE IN LIFE AS AT DEATH!

The BROOKLYN LIFE is the only Company in the country which guaranties a definite surrender-value to every Policy on which two or more annual premiums have been paid; this amount, in dollars and cents, is endorsed on every Policy issued. Should any Policy-holder become unable to pay his premiums, he can thus know the cash worth of the Policy at any time after two annual premiums have been paid.

This certainly is the greatest inducement and most tangible advantage ever accorded to parties insuring their lives.

Among the advantages offered by the BROOKLYN, which thoroughly evince the determination of the officers to make it the most LIBERAL Life Insurance Company in the United States, are:

1st. TOTAL REMOVAL OF ALL RESTRICTIONS ON TRAVEL AND RESIDENCE. The Assured may travel or reside anywhere they choose, the world over, without extra premium or special permit.

2d. A Loan of one-third of the Premium to the Policy-Holder Annually.

3d. All Policies are non-forfeitable after two full annual premiums have been paid.

4th. Rates as low as are consistent with financial soundness, and less than those of almost all Companies which accommodate their assured with loans.

5th. Dividends annually (after second year) in cash. Dividends are divided on the CONTRIBUTION PLAN—the only equitable manner of dividing the earnings of a Life Insurance Company. The Contribution Plan was first conceived by Mr. D. P. Fackler, now Actuary of this Company and has been adopted by most of the best managed Life Companies in this country.

The BROOKLYN LIFE has paid and now pays to its Policy-holders LARGER DIVIDENDS than ever before paid by a Life Insurance Company!

6th. Promptitude in paying losses.

7th. No charge for policy or stamp.

The success which the "BROOKLYN" has achieved, fully exemplified in its rapid and healthful growth, is a convincing proof of the confidence reposed by the public in its soundness, integrity and liberality.

The Supreme Court have decided that the stay law is unconstitutional and void.

They have declared that the homestead is valid and retrospective. That is, a homestead can be held against old debts as well as new debts.

The question was not before the Court as to the validity of the Bonds issued for the Penitentiary,—but we learn that the Chief Justice, in his opinion, supposed a case which was on all fours with the Penitentiary Bonds, and declared them invalid and void.

Give us an honest Judiciary, and a free press, and we can whip a corrupt Legislature and Executive,—even with one room in the Capitol for their whiskey and ice.

THE NORMAN AND THE YANKEE CONQUEST.

The battle of Hastings, placed England and the people of England, under the despotism and tyranny of their Norman conquerors.

The country was portioned out among the friends and followers of William the conqueror. "Strong military institutions enabled the conquerors to oppress the children of the soil." "A cruel penal code, cruelly enforced, guarded the privileges of the foreign tyrants."

Macaulay says, during the century and a half which followed the conquest, there is strictly speaking, no English history; but there is a history of the French Kings of England. These French Kings conquered Ireland and received homage from Scotland.

"English historians expatiated with a sentiment of exultation on the power and splendor of their foreign masters. They lamented the decay of their power and splendor, as a calamity to the country."

This is in truth, as absurd as it would be in a Haytian negro in our time to dwell with national pride on the greatness of Louis the fourteenth, and to speak of Blenheim and Ramilies with patriotic regret and shame.

"The conqueror and his descendents to the fourth generation, were not Englishmen; most of them were born in France. They spent the greater part of their living in France; their ordinary speech was French; almost every high office in their gift was filled by Frenchmen."

History is said to "repeat itself." How accurately does the history of the conquest of the South by the North, repeat, or rather, re-enact the conquest of England by the Normans. Our conquerors divided nine conquered States, each State almost an empire within itself, into five military districts, and placed five of their Captains to rule over us with military and despotic sway, to wit: Sickles, Schofield, Pope, Sheridan and Meade. Like the Norman conquerors, they fill the high offices. One of the conquerors is our United States Senator, to-wit: Gen. Abbott. Three of the conquerors fill seats in Congress, to-wit: French, Deweese and Heaton. One of the conquerors is Secretary of State, to-wit: Menninger. Another is Superintendent of Public Instruction, to wit: Pilgrim Ashely, of Massachusetts. Tourgee, from Ohio, is our Judge, more renowned for his disregard of truth than for his knowledge of the law.

New Hanover has been allotted to one of the conquerors, French.

Pitt, to Laflin.

The Norman conquerors who died in England, were carried home to France. We imitate them in sending ours back, when they die, to their homes in the North.—Holden makes one of the conquerors State director in the North Carolina Railroad, to wit: Gen. Laflin. He makes another conqueror State director in the Western Road—to wit: Gen. Littlefield.

Craven county is given to Col. Heaton and Seymour & Co.

Johnston county to Col. Cook, of negro regiment memory.

Granville county is given to the colored member, Crawford, who willingly divides his honors with Lassiter and Cuffy Mayo.

The subjugation of England by the Normans was not more complete, than was the subjugation of the South by the North. If the North had contented itself by simply suppressing the rebellion, as they called the most gigantic war the world ever saw, they might have justified themselves. But no justification remains for their oppression of their own people, for their disintegration of their own government, in order that they might find an excuse for their unconstitutional, unjust, and oppressive conduct, as narrated in Governor Worths letter to President Johnson.

The *N. Y. Tribune* has information from a gentleman well advised of Cuban affairs, who says the revolution is daily on the increase. It already holds half the island—all the East, and is spreading rapidly through the centre to the West. A Provisional Government has been formed, and an agent sent to Washington to obtain belligerent rights. Independence, total and complete, of Spain is the first object, with a view to ultimate annexation to this country. This latter point is not now discussed, lest it should lead to dissension. Slavery has been abolished, and the negroes are many of them in the army of the insurgents. Success is confidently anticipated. The cholera is now raging, and the yellow fever will soon set in and sweep off the Spanish forces as fast as they arrive. We fear that the result will be, that Cuba will be ruined, and will not be worth annexing.

JUDAS ISCARIOT, THE FIRST CARPET BAGGER AND THIEF.

We wish to call the attention of our "beloved Governor" to the points of resemblance between Judas Iscariot and his "beloved" friend, Judge Alden.—Judas was the first, and Alden the last, carpet-bagger. That Judas was a carpet-bagger is clear, for he held the bag.—He asked, when the woman used precious ointment as spikenard, "why it was not sold for 300 pence and given to the poor." "This he said, not that he cared for the poor, but because he was a thief, and had the bag, and bare what was put therein."

The cry of the carpet-bagger is negro, negro; not that they care for the negro, but that the negro enables them to bear the bag.

Judas "departed," and that was the last of him. Alden "departed," and that was the last of him." Judas hung himself; Alden did not, but he should, for Judas, like he, had betrayed his friend, not for "thirty pieces of silver," but for 5 000 pieces. Alden had not the sensibility of Judas, else he would have left his body suspended in the woods, where the carriage, in which he fled, was left.

We have not heard of Alden since he departed from Cary's in such haste, fear and trembling. He may have hung himself, but we doubt it. We never yet heard of one of the Governor's reconstruction staff hanging themselves! The Governor don't teach that doctrine; no doubt the Governor thinks Judas the greatest fool in history, for hanging himself.

Hang for betraying a friend; tut, such nonsense.

If the men who betrayed Vance had hanged themselves, how could they have betrayed Gov. Worth!

If the men who betrayed Vance and Worth, had hung themselves, how could they have held office under President Johnson,—and betrayed him!

We don't think Judge Alden, or any member of Governor Holden's reconstruction staff, will be allowed to hang themselves. Providence will reserve them for public example and Tim Lee, the Sheriff.

We do not suppose that the freedmen in North Carolina expect to live without work; and, while they are unable to have farms of their own, they must, of necessity, seek employment at the hands of the land holders. Labor is needed, and fair wages will be paid. The planter, while cotton commands even 20 cents per pound, can afford to cultivate large crops, and pay good prices; but the trouble is, in getting reliable, steady hands. And this is the point to which we especially desire to direct the attention of the freedmen. Much complaint has been made of the unreliability of the freedmen—there being exceptions, of course—and the great trouble and inconvenience which is experienced by the employer, just at the time when labor is most needed. This system of irregularity must be remedied by the freedmen, themselves—must engage for the year, and they must make good their engagements; if they do not, foreign labor will be brought forward, and the services of the freedmen, will be dispensed with. The prosperity of the South, as a whole depends entirely on successful crops—a general failure of the cotton crop is felt by all classes and all branches of business, and no class suffers more than the freedmen.

We write this, in no spirit of party—we speak for the good of the poor classes as well as for the benefit of the landholders.

This complaint, it seems, is general throughout the South. We have before us, the Montgomery, Ala., *Advertiser*, from which, we make the following extract, touching this subject. While the picture drawn by the *Advertiser*, is a sad one, and speaks disparagingly of the colored population of Alabama, we are pleased to say, the situation of our colored population is much better, although there are instances of utter worthlessness:

"Planters complain of the great scarcity of hands and anticipate much loss during the year in consequence. A great many negroes last year made money and are this year trying to farm on a small scale for themselves. Four or five will get together and use one mule. Any man of sense knows how this will result. The same amount of cotton land cannot be used this year as there was last year, from the simple fact that the labor is not in the country to cultivate it."

The *Advertiser* then proceeds to show, that, by a system of laziness, a lack of food, insufficient clothing, sickness, and inability to employ medical assistance, the colored race is fast diminishing, and will, in the course of time, disappear as have the Indian tribes.

The Charleston *Courier*, describing the funeral of Ex-Gov. Pickens, of South Carolina, at Edgefield, on the 3d, says:

One of the most touching features of this impressive funeral, was the grief and lamentation of the crowd of former slaves who flocked to pay the tribute of respect to him who had been to them the kindest and best of masters. And prominent among these, standing in one of the upper corners of the church, with his white head reverently bowed, was "old Harper," his body-servant, whose love and faithfulness to his master, through fifty long years, had never known change or shadow of turning.

MRS. GRANT.—The Washington correspondent of a Western journal has this to say of Mrs. General Grant:

Few women ever bore the perilous test of sudden fame and fortune with a more hearty happiness or more unassuming grace. Is she pretty? No. She is a roly poly of a little woman, with beautiful neck, hands, and feet. Her features are well cut, but her eyes are crossed. Some of her friends wished her to have them straightened.—"No," she said, "Mr. Grant had loved her ever since she was a little girl with her eyes crossed. He had said that she would not be herself to him if they were straight.—Crooked they should remain. If *he* was satisfied, what mattered it to other people?"

NEW ENGLAND VS. SOUTH AND WEST.—A telegram from Washington to the New York *Commercial Advertiser* says that "the New England interests will rally against the House bank bill in the Senate, and will probably procure its rejection. It withdraws a large amount of currency from the East and gives it to the West and South."

H Beasley, relating to the Manufacture of sugar from Sorghum, made a favorable report, but, owing to the present embarrassment of the State they do not feel authorized to recommend the purchase of the right by the State, but would suggest the organization of Joint Stock Companies in the State, to carry out the aforesaid object.

By Mr. Lassiter: A bill to validate certain acts of Deputy Clerks of the Superior Courts. Referred to the Committee on the Judiciary.

By Mr. Long: A bill requiring administrators to give bond only for personal estate. Referred to the Committee on the Judiciary.

SPECIAL ORDER.

Bill to provide a system of public instruction was taken up, and considered by sections. In the 30th section the following provision appears, to-wit: In every Township there shall be biennially elected a School Committee, consisting of three persons, whose duty it shall be to divide the Township into a convenient number of *Public Schools* of different grades.

Mr. Graham moved to amend by striking out "Public Schools," and insert "*Separate and distinct Public Schools for the white and colored races*," which was adopted.

NAYS.—Messrs. Bellamy, Cook, Hyman, colored, Legg, Moore, of Carteret, and Welker—6.

Mr. Sweet offered the following substitute for the 30th section, to wit:

In each township there shall be biennially elected by the qualified voters thereof, a School Committee, to consist of three persons who shall, under the supervision of their County Commissioners have power and it shall be their duty

1st. To establish and maintain for at least four months in every year, a sufficient number of separate and distinct schools of different grades for the white and colored races, and at convenient localities, which shall be under their immediate control for the education of all children between the ages of six and twenty-one years residing therein.

2nd. To establish and maintain, whenever it shall be deemed practicable, a Public School Library for the use of the inhabitants generally of the Township, and such Library shall be kept together at some convenient place.

3rd. To determine what amount of money shall be raised by tax on taxable property of the township for the purpose of building and furnishing school houses, and defray the expenses of any school or schools

A division of the question was called for and sustained, the section was stricken out.

Question recurring on the adoption of the substitute,

Mr. Love moved to amend after the word grades, "containing not less than 30 pupils each.

Pending its consideration the Senate adjourned until to-morrow, at 10 o'clock.

HOUSE OF REPRESENTATIVES.

TUESDAY, Feb. 23, 1869.

House called to order at the usual hour. Prayer by the Rev. Mr. Welker, of the Senate.

Journal of yesterday read and approved.

On motion of J. H. Harris, of Wake, colored, the rules were suspended, and the bill entitled an act to raise revenue, was taken up.

J. H. Harris, of Wake, colored, moved that the House do not adjourn until this bill is disposed.

Mr. Downing moved to amend by saying that this House shall not consider any other matters until this bill shall be disposed of.

After some further debate J. H. Harris, of Wake, colored, accepted Mr. Downing's amendment and it was agreed to by the House.

By consent Mr. Barnett, introduced a bill constructing a Railroad through the counties of Granville, Person, Caswell, Rockingham and Stokes to Mt. Airy, in Surry county, to be called the Eastern and Western Railroad.

The bill was read, and on motion of Mr. Barnett, referred to the Committee on Internal Improvements.

The Clerk then read the Revenue bill.

An amendment was offered to the 27th section levying a tax of two-fifths of one per cent. upon turpentine.

The amendment was supported by Messrs. Durham, Downing and Justice, of Rutherford, who argued that if the distillation of whiskey which was the chief occupation of the West was taxed, it was equally fair that the East should bear her share of taxation.

Messrs. Seymour, Poo, French and Estes, opposed it.

After some debate, the amendment was adopted, by a vote of years 57, nays 30.

Mr. Vest moved to amend section 27 taxing manufacturers of tobacco $15 and two fifths of one per cent upon all sales. After a number of amendments being offered, Mr. Vest called the previous question upon his amendment. The call was sustained.

On the adoption of the amendment the yeas and nays were called, and resulted in its acceptance, by a vote of yeas 69, nays 23.

The question recurred upon B. W. Morris, colored, to strike out section 27, from the bill.

Mr. Downing hoped that this motion would not prevail, and he would warn members, that, if they kept wasting time over this bill, and persisted in crippling its provisions that some of them would have to go home and leave their boarding bills unpaid. There was nothing in the Treasury, and there could be no money had until it could be demonstrated that a sufficient bill to raise revenue, had passed this General Assembly.

On the motion to strike out, the yeas and nays were called, which resulted in a vote of yeas 21, nays 66.

Mr. Ingram arose to a question. Some time ago he had introduced a resolution giving to the members their *per diem* during the recess, and he had been informed that certain parties were trying to injure him by impugning his motives in introducing the resolution. If his position in the matter was fully and fairly understood no honorable man would make an attempt to injure him therefor.

Mr. I then proceeded to state why he introduced the resolution aforesaid. He next called attention of the House to the neglect of yesterday in not holding an evening session as provided for in a resolution introduced by himself, and adopted by the House sometime ago. He characterized the proceedings as being entirely out of order, and asked the Chair as to whether or not his resolution could be rescinded by a mere motion, &c.

The Chair said the resolution was now, in its nature, one of the rules of the House, and could only be altered by a resolution after one day's notice being given, but the House could suspend the operations of that rule if they should see fit.

Mr. Seymour, (who was in the Chair at the time alluded to,) explained why he had entertained the motion adjourning the House over until this morning.

The discussion upon the revenue bill was resumed and continued the until adjournment.

The House adjourned to meet at 7½ o'clock

PROTECTION OF AMERICAN INTERESTS IN CUBA—CORRESPONDENCE BETWEEN PHILADELPHIA MERCHANTS AND SECRETARY SEWARD.

PHILADELPHIA, Feb. 17, 1869.

Hon. William H. Seward, Secretary of State, Washington, D. C.:

DEAR SIR: As American citizens, we ask special protection for vessels and other property on the south side of Cuba, in the harbors of Tunas, Trinidad and Cienfuegos. We own a large amount of property, afloat and ashore, in those ports, and if the admiral is advised by telegraph or otherwise he will be able to protect American interests in the regions now specially exposed to danger.

The magnitude of our interests in Cuba is shown by the fact that our firm paid last year from its Cuba business nearly one-fourth of the duties collected at this port.

Yours, very truly,

SAM'L. & WM. WELSH.

DEPARTMENT OF STATE,
WASHINGTON, Feb. 18, 1869

Messrs Samuel and William Welsh, Philadelphia:

GENTLEMEN: I have received your letter of yesterday's date, in which, as citizens of the United States, you make a request for special protection for vessels and other property on the south side of the Island of Cuba, in the harbors of Tunas, Trinidad, and Cienfuegos I appreciate the anxiety which you, in common with other merchants having large interests in Cuba, feel at the present time, and since the receipt of your letter I have conferred with the Secretary of the Navy, who informs me that at least one-half of the vessels under command of Admiral Hoff are now in Cuban waters, and that the Admiral has of late been frequently and fully instructed to be vigilant and active in extending every proper protection to American interests in the region referred to, which are supposed to be specially exposed to danger.

I am, gentlemen,
your obedient servant,
WM. H. SEWARD.

TROUBLE BETWEEN CUBAN REFUGEES AND SPANISH RESIDENTS—THE CIVIL EQUALITY BILL.

NEW ORLEANS, Feb. 19.

The trouble which is brewing between Cuban refugees and Spanish residents in this city has called forth a communication from the Spanish General to the Governor, asking his interference to prevent the occurrence of difficulties which are likely to take place at any moment. The Consul pledges his own efforts to prevent a disturbance of the peace. The matter has been referred to the Chief of Police.

The civil equality bill hangs fire in the Senate, which refuses to concur in the House amendments, providing that the act shall take effect on the first of April, and that all cases arising under it shall be preferred in all the State Courts.

Both Houses are holding night sessions, in the hope of dispatching business, as only eleven days of the session yet remain.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have, and can show, thousands upon thousands of certificates of remarkable cures of the following complaints, but such cures are known in every neighborhood, and why should we publish them? Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion, Listlessness, Languor** and **Loss of Appetite**, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers**, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa**, but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back** and **Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus. There are numerous cases where a purgative is required, which we cannot enumerate here, but they suggest themselves to everybody, and where the virtues of this *Pill* are known, the public no longer doubt what to employ.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that it is unnecessary to publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

To the People of the Southern States.

NEW YORK, Nov. 3, 1868.

When the pure medicinal restorative, now so widely known as Wolfe's Scheidam Schnapps, was introduced into the world under the endorsement of four thousand leading members of the medical profession some 20 years ago, its proprietor was well aware that it could not wholly escape the penalty attached to all new and useful preparations. He, therefore, endeavored to invest it with strongest possible safeguard against counterfeiters, and to render all attempts to pirate it difficult and dangerous. It was submitted to distinguished chemists for analysis, and pronounced by them the purest spirit ever manufactured. Its purity and properties having been thus ascertained, samples of the article were forwarded to ten thousand physicians, including all the leading practitioners in the United States, for purposes of experiment. A circular, requesting a trial of the preparation and a report of the result, accompanied each specimen. Four thousand of the most eminent medical men in the Union promptly responded. Their opinions of the article were unanimously favorable. Such a preparation, they said, had long been wanted by the profession, as no reliance could be placed on the ordinary liquors of commerce, all of which were more or less adulterated, and therefore unfit for medical purposes. The peculiar excellence and strength of the oil of juniper, which formed one of the principal ingredients of the Schnapps, together with an unalloyed character of the alcoholic element, give it, in the estimation of the faculty, a marked superiority over every other diffusive stimulant as a diuretic, tonic and restorative.

These satisfactory credentials from professional men of the highest rank were published in a condensed form, and enclosed with each bottle of the Schnapps, as one of the guarantees of its genuineness. Other precautions against fraud were also adopted; a patent was obtained for the article, the label was copyrighted, a *fac simile* of the proprietor's autograph signature was attached to each label and cover, his name and that of the preparation were embossed on the bottles, and the corks were sealed with his private seal. No article had ever been sold in this country under the name of Schnapps prior to the introduction of Wolfe's Schiedam Schnapps, in 1851; and the label was deposited, as his trade mark, in the United States District Court for the Southern District of New York during that year.

It might be supposed by persons unacquainted with the daring character of the pirates who prey upon the reputation of honorable merchants by vending deleterious trash under their name, that the protections so carefully thrown around these Schnapps would have precluded the introduction and sale of counterfeits. They seem, however, only to have stimulated the rapacity of impostors. The trade mark of the proprietor has been stolen; the indorsement which his Schiedam Aromatic Schnapps alone received from the medical profession has been claimed by mendacious humbugs; his labels and bottles have been imitated, his advertisements paraphrased, his circulars copied, and worse than all, dishonorable retailers, after disposing of the genuine contents of his bottles, have filled them up with common gin, the most deleterious of all liquors, and thus made his name and brand a cover for poison.

The public, the medical profession and the sick for whom the Schiedam Aromatic Schnapps is prescribed as a remedy, are equally interested with the proprietor in the detection and suppression of these nefarious practices. The genuine article, manufactured at the establishment of the undersigned, in Schiedam, Holland, is distilled from a barley of the finest quality, and flavored with an essential extract of the berry of the Italian juniper, of unequalled purity. By a process unknown in the preparation of any other liquor, it is freed from every acrimonious and corrosive element.

Complaints have been received from the leading physicians and families in the Southern States of the sale of cheap imitations of the Schiedam Aromatic Schnapps in those markets; and travelers, who are in the habit of using it as an antidote to the baneful influence of unwholesome river water, testify that cheap gin, put up in Schiedam bottles, is frequently palmed off upon the unwary. The agents of the undersigned have been requested to institute inquiries on the subject, and to forward to him the names of such parties as they may ascertain to be engaged in the atrocious system of deception. In conclusion, the undersigned would say that he has procured, from under the hands of the most distinguished men of science in America, proofs unanswerable of the purity and medicinal excellence of the Schiedam Aromatic Schnapps; that he has expended many thousand dollars in surrounding it with guarantees and safeguards, which he deemed should protect the public and himself against fraudulent imitations; that he has shown it to be the only liquor in the world that can be uniformly depended upon as unadulterated; that it has challenged investigation, analysis, comparison, and experiment in all its forms; and from every ordeal the preparation which bears his name, seal and trademark, has come off triumphant. He therefore feels it a duty he owes to his fellow-citizens generally, to the medical profession and the sick, to denounce and to expose the charlatans who counterfeit these evidences of identity, and he calls upon the press and the public to aid him in his efforts to remedy so great an evil.

The following letters and certificates from the leading physicians and chemists of this city will prove to the reader that all goods sold by the undersigned are all they are represented to be.

UDOLPHO WOLFE.

I feel bound to say, that I regard your Schnapps as being in every respect pre-eminently pure, and deserving of medical patronage. At all events, it is the purest possible article of Holland Gin, heretofore unobtainable, and, as such, may be safely prescribed by physicians.

DAVID L. MOTT, M. D.,
Pharmaceutical Chemist, New York.

26 PINE STREET, NEW YORK,
Nov. 21, 1867.

UDOLPHO WOLFE, Esq., *Present*:

DEAR SIR:—I have made a chemical examination of a sample of your Schiedam Schnapps, with the intent of determining if any foreign or injurious substance had been added to the simple distilled spirits.

The examination has resulted in the conclusion that the sample contained no poisonous or harmful admixture. I have been unable to discover any trace of the deleterious substances which are employed in the adulteration of liquors. I would not hesitate to use myself or to recommend to others, for medical purposes, the Schiedam Schnapps as an excellent and unobjectionable variety of Gin.

Very respectfully yours,
(Signed,) CHAS. A. SEELY, Chemist.

NEW YORK, 53 CEDAR STREET,

UDOLPHO WOLFE, Esq., *Present*:

DEAR SIR:—I have submitted to chemical analysis two bottles of "Schiedam Schnapps," which I took from a fresh package in your bonded warehouse, and find, as before, that the spirituous liquor is free from injurious ingredients or fusel oil: that it has the marks of being aged and not recently prepared by mechanical admixture of alcohol and aromatics.

Respectfully,
FRED. F. MAYER, Chemist.

NEW YORK, Tuesday, May 1.

UDOLPHO WOLFE, Esq.:—

DEAR SIR:—The want of pure Wines and Liquors for medical purposes has been long felt by the profession, and thousands of lives have been sacrificed by the use of adulterated articles. Delirium tremens, and other diseases of the brain and nerves, so rife in this country, are very rare in Europe, owing, in a great degree, to the difference in the purity of the spirits sold.

We have tested the several articles imported and sold by you, including your Gin, which you sell under the name of Aromatic Schiedam Schnapps, which we consider justly entitled to the high reputation it has acquired in this country; and from your long experience as a foreign importer, your Bottled Wines and Liquors should meet with the same demand.

We would recommend you to appoint some of the respectable apothecaries in different parts of the city as agents for the sale of your Brandies and Wines, where the profession can obtain the same when needed for medicinal purposes.

Wishing you success in your new enterprise,

We remain your obedient servants,

INTERESTING EXHIBITION.—We learn that the male pupils of the Institution for the Deaf, Dumb and the Blind, will give an interesting and amusing exhibition of Pantomimes, &c., at Tucker Hall, to-night.

At the same time a number of paintings, dissolving views, comic pictures, &c., will be exhibited by means of a Stereoscoptican with the celebrated oxy calceum light.—This instrument, with a splendid collection of views, has been recently procured by the managers of the Deaf and Dumb institution and Insane Asylum, for the amusement and instruction of the inmates of these institutions. The whole exhibition will be under the supervision and management of W. J. Palmer, Esq., which at once insures a decided success.

THE citizens of Gaston County, in the vicinity of Woodlawn, have captured, and broken up, a gang of lawless men—perfect desperadoes. During the investigation, which was had before a magistrate, one of the party, a negro, managed to escape, whereupon two freedmen, Sandy Davis and Albery Hanks, were sent in pursuit. In the pursuit, another freedman, Jack Sadler joined, gun in hand. The night was dark; nevertheless, they overtook him, and after a scuffle with him, about two miles from where he escaped, they took him, brought him back to Woodlawn, guarded him all night, and, in the morning, turned him over to the proper officer.

"WALKING DOWN BROADWAY," AND "CAPT. JINKS."—We are fond of music—very—could sit all day, without nourishment of any kind, and feast our body and soul on the *strains* of good music, such as we once heard, and never once say, *enough*. But, this interminable whistling of "Walking down Broadway," and "Capt. Jinks," by the youth of the City, from early dawn till Friday Jones strikes the Capitol bell ten times with a sledge hammer, is just a little more than our nerves are capable of bearing. But, bear it, we must—so it seems; but, to bear it patiently, we cannot. Meeting a little African, whose epidermis was as black as the soul of the murderer of President Lincoln, whistling "Capt. Jinks," we halted him, and offered him ten cents never to whistle that tune again, in our hearing. The imp lowered his notes while we were talking, to hear what we had to say—after which, he shook his head, no, and, running his lips out to their full capacity, he marched off, *ala mode* "Capt. Jinks," and the shrill notes, of that same old tune, rung in the distance, like the first blast of the huntsman's horn. A plague on "Capt. Jinks," and "Walking down Broadway."

THE LATE DR. A. WILSON.—We alluded some weeks since, to the fact that J. M. Wilson, Esq., author of the Historical Almanac, would present in his work, a steel engraving of the late Dr. Wilson, in connection with a memoir of that distinguished divine.—The memoir is now being prepared, by a distinguished lady of North Carolina. The Almanac will have over 160 memoirs of Presbyterian Ministers—among them, we presume, that of the much lamented Henry Hardie, of this City. The work commends itself to the people of North Carolina, and especially to the members of the Presbyterian Church, and to those who, in other days, sat around the Rev. Dr. Wilson, for instruction. The Almanac, to Clubs of ten, will be sent for $2 each. Orders through Mr. A. G. Hughes, Mebanesville, will be attended to.

THE Tuscaloosa (Alabama) *Observer*, says our community, was shocked to learn that Wm. P. Phifer, an excellent gentleman and worthy citizen, was assassinated Monday night of last week. He was shot down in cold blood, in his own yard, and within a few steps of his house. Called upon to give directions to one, seeking, as he supposed, the public road, he only became aware of danger when the fatal shot had pierced his body. Mr. Phifer lingered until Wednesday, at 10 o'clock, and expired in the midst of his family, who were overwhelmed with grief.

STEAM MILL BURNT.—The Steam Flour Mill of Mr. R. H. Cowan, who resides six miles west of Salisbury, on the Lincoln Road, we regret to learn, was destroyed by fire, on Monday night. It had but recently been built, at a cost of some $5,000. No insurance. Circumstances place it beyond doubt that the mill was first robbed of a quantity of flour and then set on fire.—*Statesville American.*

SKIRMISHING.—The negro soldiers were out in force on last Saturday night, yelling, drinking and bumming around promiscuously. It seems that the "dragons" are kept here merely as an insult or to spite our citizens who are almost left to the mercy of those desperadoes. A gang of those lawless "braves" supposing that they could do as they pleased, (which is their open boast) were carrying on ridiculous in the upper part of this town; but, we are pleased to say, they were soon checked in their lawlessness by our ever vigilant police, who attempted to arrest the whole gang, when all of them took to their heels effecting their escape, however, not without having some six or eight pistol shots dispatched after them.—*Goldsboro Messenger.*

AN OLD OFFENDER CAUGHT.—On Friday night, while Deputy Sheriff Thomas and a squad of men were in search of William Brown, one of the escaped prisoners, they came across and captured, near the suburbs, Kansas Powell, alias Raines Powell, an old offender. A *capias* issued for his arrest at the last term of the Superior Court for an affray has been in the Sheriff's possession ever since. It was impossible to find Powell before, but he is now safely lodged in jail.—*Wil. Journal.*

DESERTER.—A soldier named John Lucas, a member of the 6th, Infantry, yesterday, came up and surrendered himself to the police, being an escaped prisoner from Fort Macon. He is under sentence of three years for desertion, and made his escape from Fort Macon, with several others, some time since. He is now confined in the guard house, and will soon be sent back to his former prison.—*Wil. Journal.*

One of our best citizens and farmers remarked to us, recently, that before the war, he had determined to emigrate, perhaps to Arkansas, but was prevented by the trouble that soon followed; now, however, he had made up his mind to spend the balance of his days in "old Iredell"—preferring North Carolina to any other State. Said he: "I believe that North Carolina, taken as a whole, possesses more advantages than any State in the Union, and Iredell is one of the best counties in it." In our opinion, our friend spake the truth. The writer of this article, once emigrated *from* North Carolina, and spent *eighteen years* searching for a "better place," and did not find it until he again came back to the old North State.—*Statesville American.*

A horrible murder occurred last Monday week in Kershaw District, S. C. A purse named Morris Corbitt, a colored boy, aged twelve years, in the absence of the child's mother, buried, while still alive, a colored child, about fifteen months old, alleging at first that the child was burned to death, but finally confessed that it tried to rise after it was put under the ground. The Coroner's Jury rendered a verdict that Morris Corbitt was the murderer of the child, and the young scoundrel is now in jail.

The wheat crop in this county looks remarkably fine, and we are delighted that this year's experience promises to explode the old fogy idea that abundance of snow is the best protection to wheat. We never did believe it, and never will. Warm weather always encourages the growth of grain of every kind, and there is nothing warm in snow, though some people affect to think there is.—*Clarksville, Va., Tobacco Plant.*

Major Parker, special agent of the Post Office Department, arrested in Richmond on Friday, William Archer, mail agent on the route from Richmond Southward, charged with breaking open letters in the mail and abstracting money therefrom.—The robbery was committed between this city and Goldsboro', N. C., but the extent of it is as yet unknown. Two hundred dollars in money have been recovered.—*Petersburg Index.*

We congratulate the war widows upon a late material improvement in their worth and prospects. Congress has passed a bill providing that their pensions shall not be forfeited by remarriage. Strong Union sentiment, no doubt, prompted this concession, which is calculated to "altar" many a widow's destiny.

CUBA—PORTS CLOSED TO FOREIGN AND DOMESTIC SHIPPING—REINFORCEMENTS FROM SPAIN.

HAVANA, Feb. 19.—A proclamation has been issued by the Captain General, closing to foreign and domestic shipping all ports east of the Bay of Cadiz lighthouse on the northern coast, and east of Cienfuegos on the southern coast, except such ports as are provided with custom houses.

Transports arrived here yesterday with one thousand troops from Spain, and others arrived to-day with one thousand more. Orders have been issued requiring citizens to deliver to the authorities all private arms.

THE MASSACHUSETTS LEGISLATURE.—*Boston, Feb.* 19.—The following resolution in reference to the Alabama treaty with Great Britain was introduced to day:

Resolved, That the Massachusetts Legislature, in General Court assembled, firmly believe that any treaty between England and America touching the premises aforesaid, to be submitted now or at some future time for ratification, which does not by its terms concede the liability of the English Government for the acts of its proteges, the Alabama and her consorts, will be spurned with contempt by the American people; and that a ratification thereof would be dishonorable to our nation and unjust to our citizens.

The resolution was referred to the Committee on Foreign Relations.

PASSPORT REQUIREMENTS IN FRANCE.—Information has been received at the Department of State that the exhibition of passports will be no longer exacted from citizens of the United States arriving, travelling or residing in France.

The Department, however, recommends that citizens of the United States travelling abroad, particularly those of foreign birth, naturalized in this country, should provide themselves with passports, as they might be liable to serious inconvenience if unprovided with such authentic proof of their national character. LIFE INSURANCE.

NATIONAL

LIFE INSURANCE COMPANY,

OF THE

UNITED STATES OF AMERICA,

WASHINGTON, D. C.

Chartered by Special Act of Congress, Approved July 25th, 1868.

CASH CAPITAL,

$1,000,000,

PAID IN FULL.

This Company, National in its character, offers, by reason of its large capital, low rates of Premium, and New Tables, the most desirable means of insuring life yet presented to the public.

The rates of premium being largely reduced, are made as favorable to the insurers as those of the best Mutual Companies, and avoid all the complications and uncertainties of Notes, Dividends and the misunderstandings which the latter are so apt to cause the Policy-holder.

Several new and attractive tables are now presented, which need only to be understood to prove acceptable to the public, such as the INCOME-PRODUCING POLICY and RETURN PREMIUM POLICY. In the former, the policy-holder not only secures a life insurance, payable at death, but will receive, if living, after a period of a few years, an ANNUAL INCOME equal to ten per cent. (10 per cent.) of the par of his policy. In the latter the Company agrees to return to the assured the total amount of money he has paid in in addition to the amount of his policy.

The organization of this Company on the LOW RATE CASH PLAN, with new features and unequaled security, has evoked the most remarkable opposition from other and rival Companies. By means, fair and unfair, they have sought to injure the new system, and have attacked it with a degree of virulence unknown in the history of Life Insurance.

Not satisfied with the immense sums of money paid Insurance and other journals, to try and check the rapid progress of the National, an unsuccessful motion was made in Congress to repeal its charter, all of which but accelerated its speed for since then the largest policies issued has been to members of Congress, whose attention has been thus attracted to its unsurpassed advantages. In the face of this opposition, the work of the Company has gone steadily forward, and it is with no little satisfaction that the GENERAL AGENTS are able to state that the business to date is far in advance of anything hitherto accomplished.

In Six Months 3,000 Policies have Been Issued.

INSURING, IN ROUND NUMBERS,

$10,000,000.

The attention of persons contemplating insuring their lives, or increasing the amount of insurance they already have is called to the special advantages offered by the National Life Insurance Co.

NEW ARRANGEMENT.

The RALEIGH SENTINEL having passed under the Editorial management of the undersigned, it will, from the present date, be conducted by him.

It will be the zealous and fearless advocate of the CONSTITUTION of the United States, seeking to bring the people back to their ancient reverence for that immortal instrument, and to restore the policy of the country to that honored standard, as the only guarantee of National prosperity.

It will do justice to the men and measures of the present day, whenever they may merit it, but it will unsparingly lash and denounce all who set themselves up in opposition to the Federal Constitution, and hold up to the public indignation corruption and imbecility in high places.

It will ardently seek the promotion of the best interests of North Carolina,—moral, educational, material and political.

From every quarter, both by mail and telegraph, will be carefully collated and presented.

Full and correct market and financial reports will be given.

NEW METHOD OF WASHING CLOTHES WITHOUT LABOR.

THE AUTOMATIC

CLOTHES WASHER AND BOILER.

THIS BOILER IS MOST EFFECTUAL, reliable and universally recommended. It can be used on any Stove or Range, in any boiler, and the LOW PRICE of the article places it within the reach of every family.

This Boiler operates upon purely philosophical principles, is self-acting, and dispenses with labor and the wear of the clothes.

The hot suds and steam, by the action of heat, are driven up through tubes, poured upon the clothes, and forced through the fabric with astonishing rapidity, cleansing all articles, from the finest laces to the bed-blanket. For Flannels it is invaluable, as it does not full them as in the old process of rubbing and pressing.

The time required for cleansing a boiler full of clothes is twenty to thirty minutes, and nearly three hundred gallons of boiling suds are forced through the fabric, thoroughly loosening and eradicating the dirt WITHOUT LABOR or friction.—A thorough rinsing finishes the process.

Washing day will no longer be a terror and dread to housewives. The cost of the Boiler will soon be returned in the SAVING OF TIME AND LABOR, and the great saving in the wear of clothes.

The great value of this invention appears so clear, and appeals so directly to common sense, that we have deemed it unnecessary to accompany the introduction with numerous letters of approval, &c.

No invention has met with such ready sale and given such satisfaction. Call at LOUGEE & BROTHER'S, and see its wonderful operations.—We have the exclusive right to sell and manufacture in the State.

Now just let ME tell you, that there is more humbug than poetry in all this. Don't every man, woman and child know that it is humbug—large enough to be seen even with one eye shut? So let them talk, puff and blow, but STOP, LOOK OUT! **HANDS OFF!** and show your good judgment by
